

RMA CREDIT RISK NAVIGATOR,

powered by *afs*

Measuring your commercial loan performance is a best practice during any part of the economic cycle, and even more critical during periods of stress. Understanding how your portfolios stack up against other banks can help you adjust your strategy.

RMA's Credit Risk Navigator, powered by AFS, is one of the industry's best resources for understanding the credit performance of your portfolio. Whether it is stress testing scenarios, comparing your loan performance with industry benchmarks, or preparing for your next meeting with senior management and the board, Credit Risk Navigator is your analytical companion.

TOP CORE METRICS & MEASURE CATEGORIES

- Risk rating
- Expected Loss
- Balance Growth
- Industry and Geography
- Nonaccruals
